

Workshop edible plants on droef!

Did you know that many weeds in your garden are edible? During this workshop, you can learn how to recognise, collect and prepare edible weed species!

On Sunday 20 October, 13:00-21:00 o'clock, we will give a workshop about edible weeds on Droevendaal. We will visit the gardens of all participants, where we will show several edible weed species. Then we will discuss which species we would like to eat and search for recipes. We will collect the weeds and make a dinner out of them (in house 37), probably supplemented with normal ingredients.

You can send an e-mail if you would like to join! Hope to see you on 20 October!
